Pickaway-Ross Career & Technology Center (PRCTC) Sophomore Tours

All Sophomores will be touring PRCTC on November 8th. Students have chosen 3 programs to view while they are there. This is a great opportunity to learn about in-demand careers and explore the possibility of attending PRCTC next year. For information on available programs visit <https://www.pickawayross.com/>

Senior Lunch Check-Ins Starting This Month

Starting in November we will be rotating through small groups of students during lunch periods. This will be a brief time that we can help students with any issues that occur as part of their senior year. Students can receive help on how to set up job-shadowing opportunities, graduation questions, get help with career and college applications, help with letters of recommendation, etc.

College Tours in November

Students will be taking bus tours of Shawnee State and several Central Ohio Colleges this month. This is put on through Pickaway Works in collaboration with our LEHS Counseling Office. This opportunity allows students to explore possible college and career paths.

FAFSA Financial Aid Night

Students and parents will have the opportunity to learn how to apply for financial aid for college during our November Open House. This is a great opportunity to walk through the FAFSA step-by-step and have everything submitted with the assistance of an advisor.
