### Construction Update

Mr. Mitchel's Construction Technology class at Logan Elm High School has made progress on their pole barn project, recently pouring the concrete floor. Students spent the day learning to pour, level and finish the floor.

Mr. Mitchel reported this is the 17th pole barn his classes have constructed over the years and this particular project is one of the largest and most detailed pole barns they have built.

## Laurelville Students Donate Flag to the Village of Laurelville

Laurelville Elementary Student Council recently partnered with the Village Council and students from Pickaway Ross CTC to improve the flag pole at the main intersection in the Village.

Mr. Ebert's Machining and Manufacturing students at PRCTC designed and built a new bracket for the flag pole. Laurelville Elementary's Student Council raised money to purchase a new United States flag and an Ohio flag. Fourth grade students attended the donation ceremony and participated in raising the new flags. Members of the Village Council, Don Kempton, Jr. and Sue Ann Hinton, accepted the flags on behalf of the Village of Laurelville.
