### A Message from the Superintendent

I would once again like to thank the voters for approving the bond issue on November 6, 2018. This is a very exciting time for the District. Over the past two months, we have created a presentation which will be used to receive a bond rating in preparation for selling the project bonds. This is the first step in the construction process, which the Ohio Facilities Construction Commission (OFCC) controls within the parameters of the Ohio Revised Code. We will continue to work with OFCC on our project and provide updates as we receive them.

Tim Williams, Superintendent

### Laurelville Second Grade Students Design Flag for Visitors Bureau

Second grade classes at Laurelville Elementary and Pickaway Elementary spent the first semester completing a problem based learning project in which they researched the history of Pickaway County and designed a flag for the Pickaway County Visitors Bureau. One team's design was selected as the winner. The winning design was created by Jackson Snyder, Talon Smith and Nicholas Davis, who are pictured at left with Tim Wilson, Executive Director of Pickaway County Visitor's Bureau and Tammi Wooten, second grade teacher at Laurelville Elementary.

Congratulations to Jackson, Talon and Nicholas, along with all of the students who researched, designed and presented their flag concept to a panel of judges! The winning design will be made into a flag that will be flown at the PCVB center on Main Street in Circleville.

### Pickaway Kindergarten Studies Economics

The kindergarten students in Mrs. Starkey's class got a lesson in economics during the month of December. Each time they were caught being respectful, being a good friend, or working hard, they received "pennies" for their "piggy bank". The money earned would be used to help students decorate their own gingerbread house. All students were supplied with the necessities to create their house, and at the end of the week, students were able to purchase materials to help make their house. These materials included candy canes, gum drops, and cotton candy snow.

It was interesting to see how students budgeted and used their money. They had to make decisions based upon the amount of money they earned.

## Winter Weather and School Closing/Delay/Early Release

With the arrival of winter, there may be days when Logan Elm Schools are delayed two hours or closed. A decision on the status will be made around 6:00 AM each day.

Delays and closings are announced via Twitter (@loganelmschools), the District website ([www.loganelm.org](http://www.loganelm.org)) and the One Call Now phone messaging system. Closing and Two Hour Delay announcements will also be sent to Columbus television stations (Channels 4, 6, 10 and 28) as well as local radio stations.

### Early Release

Occasionally, winter weather systems will move into the area after students have arrived at school. In the event that hazardous road conditions are predicted to occur later in the day, Logan Elm Schools may release students early.

On days when winter weather occurs after school has started, please check the District's website and Twitter account for messages regarding early release of students. Announcements will also be made via the One Call Now messaging system, Columbus television stations and local radio stations.

## Thank You!

Thank you for reading the Logan Elm Newsletter! We appreciate your interest in the students and activities of all Logan Elm schools! Watch for our e-newsletter on the second and fourth Friday of each month.
